8GB USB 2.0 Slimline Hyperdrive

Hypertec 8GB USB 2.0 SLIMLINE HYPERDRIVE USB flash drive USB Type-A Silver:

The HyperDrive is a USB flash drive designed to take the hassle out of data access and transfer. A plug & play device that simply plugs into any USB port – PC, laptop, projector - if it has a USB port the machine will automatically detect the HyperDrive as a removable drive. Now you can read, write, copy and move data from your hard disk to the HyperDrive or from the HyperDrive to your hard disk.

All Hyperdrives also come with free sanitisation software - when you choose to delete data, this software ensures all traces of it are removed from the drive instead of leaving a restorable residue.
