Why You Should Relieve Wrist Tension with Vertical Mouse Ergonomics

The Challenge

Traditional flat mice force the forearm into an unnatural twisted position, which compresses nerves and leads to debilitating long-term strain:

Forearm Pronation: Twisting the arm flat against the desk creates internal muscle tension.

Wrist Compression: Resting the wrist on the desk while clicking compresses the median nerve.

Repetitive Strain: Micro-movements in a compromised posture cause long-term pain and fatigue.

The Solution: AVE Ergonomic Wireless Mouse

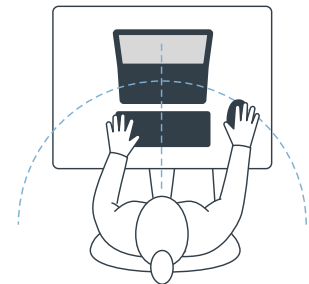

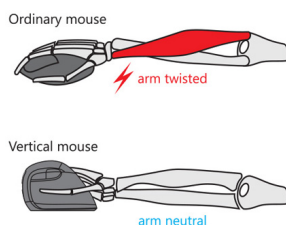

The AVE mouse features a vertical design that supports the hand in a natural "handshake" position, eliminating forearm twisting and reducing pressure on the wrist joint:

Neutral Posture: Aligns the forearm and wrist naturally to relieve muscular stress immediately.

Reduced Friction: Prevents the underside of the wrist from anchoring and rubbing against the work surface.

Effortless Navigation: Encourages cursor movement to originate from the larger arm muscles.

Product Highlights

Vertical Handshake Posture: Scientifically contoured to keep the hand and forearm in a neutral alignment, eliminating painful wrist pronation and twisting.

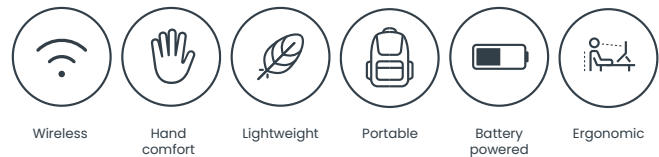

Friction-Free Movement: Prevents the vulnerable underside of the wrist from anchoring on the desk, encouraging healthier, full-arm cursor control.

Customizable Precision (DPI): Allows users to instantly adjust cursor tracking speed to accommodate varying analytical, design, or standard administrative workflows.

Unrestricted Wireless Control: Operates reliably without cable drag to ensure smooth, precise navigation and a cleaner, more organized physical desktop.

Accessible Button Placement: Strategically positions primary clicks and the scroll wheel within natural finger reach to minimize micro-strains during repetitive tasks.

Professional Matte Finish: Provides a secure, comfortable tactile grip while maintaining a sharp, professional look suitable for different work environments.

Technical specifications

Size	84 x 100 x 75 mm
Weight	100 g
Connectivity	robust 2.4 Ghz wireless connection via nano receiver
DPI	800/1200/1600
Hand size	for women – medium hands
	for men – small / medium hands
	right-handed use
Buttons	6: left, right, scroll + click, forward, backward, DPI
Power	AA battery x 1 (battery life: approx. 6 months)
Compatibility	Win 7, 8, 10 / MacOS / Android
Product code	ST304020
