

UltraBoard 950 V2

Compact USB-C wired keyboard, allowing you to work in-line anywhere, anytime. With two integrated USB-A ports.

Compact but rich!

Despite its compact size, the UltraBoard 950 V2 is packed with features. It adheres to ergonomic standards outlined in the DIN EN ISO norms for keyboards. The scissor mechanism, 19mm key center distance, and concave keys with dark lettering on a white background ensure comfortable and accurate typing. Additional features include hotkeys, integrated multimedia keys, and status LEDs for efficient workflow.

Ergonomic background

A compact keyboard without the numeric keypad, which allows placing the mouse closer to the keyboard. Research shows that 90% of users use the numeric keypad rarely, or never. With a compact keyboard you work more comfortably, because it lowers the reaching distance to the mouse (Cook C. et al, 1998). This lightens the load on the forearms and shoulder. Dark letters on a clear background make reading easier (ISO 9241) and contribute to higher productivity (Snyder, 1990).
