

PRF Mouse Wireless

The PRF Mouse Wireless is a vertical mouse that ensures an ergonomically way of working.

Thanks to the well-designed fit, the PRF Mouse Wireless is for nearly any hand size. A wireless vertical mouse for right-handers, and it is ideally for mobile work, but you can also use it at your fixed workplace at home or in the office. With the PRF Precision Mouse, you can store the USB receiver behind the magnetic battery cover for transport. Further, this vertical mouse has easy to reach thumb buttons and an adjustable pointer speed button for more efficiency. Start now to improve your performance at work with the PRF Mouse Wireless.

Ergonomic background

Prolonged use of a regular mouse can lead to pain and discomfort in the shoulders, forearms, and hands (Chang et al., 2007 & Andersen et al., 2008). The handshake position of vertical mice keeps the wrist from bending as much to the side while the forearm also turns inward to a lesser degree (Schmid, et al., 2015). This means that muscle activity in the forearm is less than it would be when using a conventional mouse (Quemelo & Vieira, 2013). Research has shown that the use of a vertical joystick mouse ensures a faster recovery from forearm, wrist and hand complaints (Aarås, et al., 2001). And therefore, vertical mice compared to standard mice lead to a healthier and more comfortable way of working.
