

147932 4-Pole speakON Cable Connector, Black/Green, Professional Audio Speaker Connector, 4-Pin Locking Speaker Plug, High-Power Amplifier to Loudspeaker Connector, Durable Twist-Lock PA Connector

Product Images

Short Description

- **Connector Type:** 4-Pole speakON cable connector
- **Assembly:** Screw-terminal design for secure wiring
- **Strain Relief:** Chuck-type strain relief for 6–12 mm cable diameters
- **Locking System:** Reliable twist-lock mechanism to prevent accidental unplugging
- **Durability:** Robust housing suitable for professional audio environments

Description

The 147932 4-Pole speakON Cable Connector is engineered for professional audio environments requiring safe, stable, and high-power speaker connections. Designed for amplifiers, PA systems, stage monitors, and loudspeakers, this connector ensures a secure signal path even in demanding live sound or touring conditions.

Its 4-pole configuration supports high-power audio routing and flexible wiring options, while the twist-lock mechanism prevents accidental disconnections during performances, rehearsals, and transportation. The screw-terminal assembly makes installation fast and reliable, and the reinforced chuck-type strain relief accommodates cable diameters from 6 to 12 mm, providing strong mechanical retention.

Built with durable materials and a robust housing, the 147932 speakON connector delivers dependable performance for stage technicians, audio engineers, and rental/installation professionals. Whether used in concert halls, studios, houses of worship, or event venues, it ensures consistent, noise-free, and vibration-resistant speaker connectivity.

Additional Information

Angled Plug.	No
Connector 1.	4-Pole speakON
Approval and Compliance.	CE , RoHS
Operating temperature.	0°C ~ 40°C
Package Contents.	4-Pole speakON cable connector
Color.	Black
EAN.	4015867243084
Model Number.	147932
Dimensions (W x D x H).	22.5 x 22.5 x 79 mm
Product weight (kg).	0.03
Material.	Metal, Plastic
