Description

The **E2000/APC to LC/APC Fiber Cable, SM** is a high-performance single-mode fiber optic cable designed for precise and reliable data transmission in professional network environments. Featuring E2000/APC and LC/APC connectors, it ensures ultra-low insertion loss and excellent return loss for stable optical performance. The angled polish connectors minimize back reflection, making it ideal for high-speed, long-distance communication applications. Built with durable, high-quality materials, this cable provides superior signal integrity and long-term reliability. Perfect for data centers, telecommunications, and enterprise networks, it delivers outstanding performance where precision and efficiency are critical.
