

VeriMark™ Guard 2.1 USB-C® Fingerprint Security Key - FIDO2, WebAuthn/CTAP2.1, FIDO U2F -Cross Platform

Biometric security, simplified.

K65051WW

Product Description

With 80% of data breaches involving stolen or weak passwords, organizations face significant risks and costs. Implementing second or multi-factor authentication is essential to safeguard sensitive information. The VeriMark™ Guard 2.1 USB-C® Fingerprint Security Key offers a robust biometric authentication solution that meets FIDO2 and CTAP 2.1 standards. Leveraging biometrics for robust security, it resists spoofing while enabling quick, passwordless access. This enhances the user experience and safeguards against unauthorized entry. With extensive compatibility across leading web services, VeriMark™ Guard empowers IT teams to strengthen security protocols and protect valuable data efficiently.

Product information

Gross weight 0.02kg

Retail Packaging Information

Depth	80mm
Width	21mm
Height	134mm
Gross weight	0.04kg
UPC#	085896650515
Unit quantity	0

Master Case Information

Depth	137mm
Width	113mm
Height	105mm
Gross weight	0.25kg
UPC#	50085896650510
Unit quantity	5

Shipping Information

Country of origin	TW
Minimum Order Quantity	1

Features

- Secure and flexible authentication across multiple platforms.
- Supports FIDO2 biometric authentication services and FIDO U2F services requiring security key functionality.
- Exceptional biometric performance, 360° readability, and advanced anti-spoofing technology.
- Designed for portability, it features a protective cover and tether, ensuring easy transport.
- Aligns with cybersecurity measures that comply with key privacy laws and regulations, including GDPR, BIPA, and CCPA.
- Certified for Microsoft Entra ID for secure multifactor integration with Microsoft services.
- Passkey compatibility with Microsoft, Google, and Apple for a convenient and secure sign-in experience.
- Supports ISO/IEC 27001 standards for data protection.
- 2-year limited warranty.
- Supports CTAP 2.1 Protocol
