# Aliabox®

Immediate availability, simplified management, enhanced security

Aliabox 10P

Aliabox 5L

Aliabox 5P

## Equipment available, tracked, and protected

- ✓ **Support for employees and users:** distribution of IT accessories or laptops with traceability, to optimize helpdesk service and reduce travel (e.g., digital services, distribution, banking and insurance sectors).
- ✓ **Shared and controlled access:** provision of PCs, tablets, or accessories in university libraries, colleges, or public sites with reservation and identification of borrowers (e.g., education sector and local authorities).
- ✓ **Maintenance and service continuity:** management of swaps, returns, or one-off equipment loans to ensure immediate availability and limit interruptions (transportation, finance, and industry sectors).

Up to 3 devices per locker

## What makes the difference

**Ready-to-use, up-to-date devices:** always available thanks to built-in charging and remote updates.

**Secure access:** opened with an RFID badge or code, configurable according to your organization's needs.

**Maintenance and IT services:** possible integration of a switch via RJ-45 connection for remote maintenance and centralized network management.

**Centralized management via Aliacconnect:** simplified reservation, tracking, and monitoring of loans from a dedicated software interface.

**Simplified monitoring:** movement history and automatic alerts to anticipate incidents or unavailability.

**Modular formats:** choice of suitable configurations (small or large lockers) to meet different user needs.

**Connected version** with access to a cloud platform hosted in France - **Aliaconnect**

110-230V socket, 1 USB-A port & 1 USB-C port  
Two options available: Tabipower charging and RJ45 maintenance

Charging for up to **3 devices per locker**
