

charge - secure - synchronize

Collective charging cabinets

# Tabibox<sup>®</sup> FS1

Compact wall-mounted solution for charging and organizing your professional mobile devices

Reception area with dividers

For 40 devices up to 7"

Door opens 180° for full access with minimal restrictions

## Designed for fleets of small shared equipment

- ✓ **Points of sale and logistics:** stores and recharges smartphones, payment terminals, and scanners used daily in back offices, pickup areas, and stockrooms.
- ✓ **Emergency services and operational departments:** organizes the provision of mobile equipment (body cameras, micro-recorders, portable printers, etc.) in on-call rooms or secure locker rooms.
- ✓ **Public and cultural institutions:** easily integrated into libraries, museums, or media centers, even in narrow or high-traffic areas, to organize and recharge equipment used by staff or made available to visitors.

## What makes the difference

**Ultra-compact wall-mounted design:** shallow depth (26 cm) and 180° opening for integration into small spaces.

**Fast and smart charging:** Tabipower power supply optimized to preserve battery life and extend battery life.

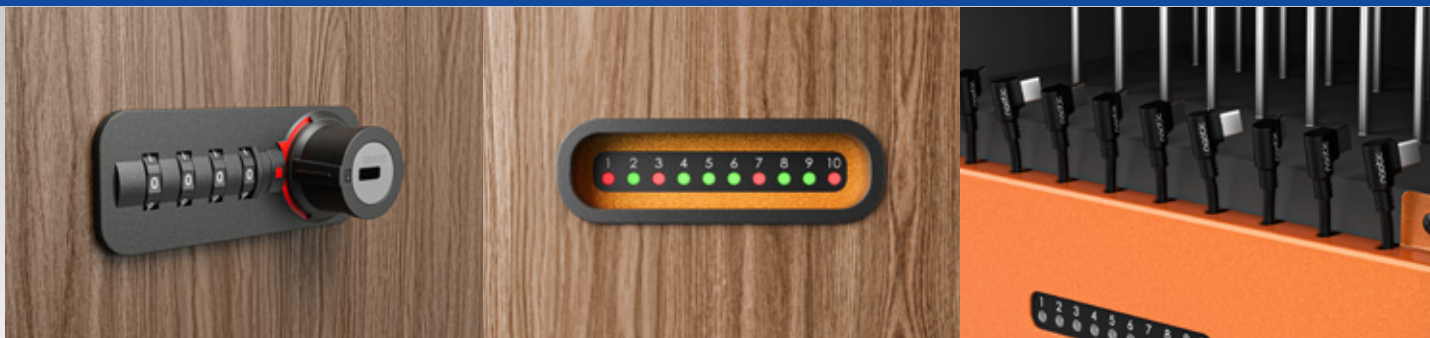

**Structured organization and easy supervision:** each device is stored logically, and the charge status is visible at a glance thanks to the remote LED strip.

**Interior modularity:** movable dividers to accommodate different sizes or types of devices.

**Designed for small professional devices:** smartphones, payment terminals, scanners, headsets, microphones, cameras, etc.

**Designed for intensive professional use:** sturdy melamine panel structure and metal components, built to last in demanding environments.

**4-digit code lock**  
with pass key

**Charge visualization** with LED  
indicator

**Secure technical area -**  
non-detachable charging  
cables
