

charge - secure - synchronize

Self-service charging station

Tabidock®

Recharge your devices yourself, close to where you use them

Version for 20 smartphones

Version for 10 tablets

Version for 5 laptops

Designed for your everyday workspaces

- ✓ **Points of sale & back office:** make it easier to recharge digital devices in your business areas: reception desks, customer service areas, administrative offices.
- ✓ **Local authorities & public institutions:** offer shared devices or charging points in media libraries, town halls, or schools.
- ✓ **Businesses & shared spaces:** optimize the availability of digital equipment in meeting rooms, open spaces, temporary offices, or collaborative spaces.

What makes the difference

Immediate access with secure cables: charging cables are fixed and protected, always available, with no risk of loss or accidental removal.

Optimized and sustainable charging: fast charging with LEDs on the front via Tabipower, so devices are charged and available at all times.

Free-standing or wall-mounted: wall mounting possible for seamless integration into professional environments, with no location restrictions.

Compact and durable structure: 100% metal construction and understated design, ideal for demanding professional environments.

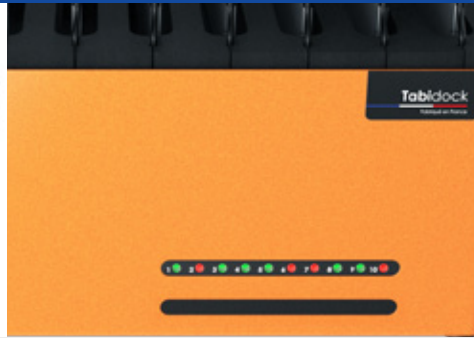

Range adapted to every need: stations available for laptops, tablets, or smartphones, in electric or USB-C versions.

Modular reception design: customizable layout to accommodate different devices according to business uses and needs.

Flexible integration with custom foam tailored to specific devices

Charge status visualization via LED indicator

Notch for securing with a safety cable
