

## **Goldtouch Right-handed Ergonomic Mouse**

**Part code: M-GT**

Goldtouch USB comfort mouse right-handed

### **Description**

The Goldtouch Mouse was designed to mirror hands in a weightless environment. The unique shape of this ergonomic mouse ensures that the hand is well supported and gently tilts the wrist at a 24 degree angle. This gentle tilt of the hand and wrist helps to alleviate pressure on the tendons and joints, and supports the natural position of the arm.

In addition, this mouse features an oversized thumb cushion to ensure that hands of every size maintain a comfortable grip on the mouse, without increasing the pressure applied by the thumb. The oversized buttons allow fingers of all sizes to activate (click) without stretching or bending their fingers in awkward or uncomfortable positions.

The Goldtouch Comfort Mouse is PC and Mac Compatible; it's easy to use plug and play technology that doesn't require any additional driver installation.

### **Features**

- Supports a more neutral wrist angle of 24 degrees that helps alleviate muscle fatigue and discomfort caused by pronation of the wrist.
- Over-sized thumb cushion helps maintain a comfortable grip for hands of every size without increasing the pressure applied by the thumb.
- Over-sized buttons allow for the fingers to press without bending the fingers at the interphalangeal joints which reduces and alleviates arthritic discomfort.
- Plug and play technology is compatible with Windows 2000, XP, Vista, Windows 7, Mac OS 10.4, and newer.

## **Product Specification**

Scroll: Yes

Movement resolution: 1000 DPI

Scroll type: Wheel

Movement detection technology: Optical

Buttons: 2

Dimensions: 80 x 114 x 52 mm

Weight : 145g
